

WebSphere for z/OS Version 8 Implementation (ES68G)

ID ES68G Preis 3.990,- € (exkl. MwSt.) Dauer 5 Tage

Zielgruppe

This advanced course is for experienced z/OS system programmers responsible for the installation and customization of WAS V8, along with Information Technology (IT) professionals responsible for the deployment of EJB and web applications into WAS V8 on z/OS.

Teams of two or three individuals from an enterprise are recommended to attend. Teams should include the z/OS system programmer responsible for the installation of WAS V8, an application assembler responsible for deploying EJB and web applications, and possibly a WAS specialist. The range of skills needed for deploying WebSphere eBusiness applications is such that it is rare for one IT professional to have expertise in all areas of WebSphere.

Voraussetzungen

You should have:

- Experience with the installation and customization of z/OS and its subsystems, including WLM, TCP/IP, UNIX Services, and the Security Server (Resource Access Control Facility (RACF)), or equivalent product.

This course, just as the WAS V8 product does, assumes that the initial z/OS infrastructure basics have already been implemented, including WLM Goal Mode, Resource Recovery Services (RRS), and the System Logger. The basic implementation of these z/OS subsystems or functions are not covered in this course. Individuals who need training in the implementation of the prerequisite

subsystems and functions should consider completing other appropriate courses in the curriculum prior to attending this course.

Kursinhalt

WebSphere Application Server (WAS) Version 8.5 (V8) for z/OS provides a Java2 Enterprise Edition (J2EE) runtime environment for Enterprise JavaBeans (EJB), along with servlets and JavaServer Pages (JSP) in web applications.

WAS V8 extends the platform established in WebSphere for z/OS V7, bringing new functionality for application management, and new flexible management and administration options.

Learn how to install and customize WebSphere V8.5 for z/OS, and how to deploy EJB applications and web applications. Reinforce the concepts you learn in lectures with extensive hands-on laboratory exercises.

Note: This course does not address Java application development for z/OS, and it does not teach the use of programming tools such as IBM Rational Application Developer V8.

Detaillierter Kursinhalt

Day 1

- Welcome
- Unit 1: Introduction to WebSphere for z/OS V8
- Unit 2: Installing the WebSphere V8 stand-alone server (Part 1)

Day 2

- Unit 2: Installing the WebSphere V8 stand-alone server (Part 2)
- Lab 1: Installing the stand-alone server

Day 3

- Unit 3: Deploying applications with WebSphere V8 administration tool
- Lab 2: Administration of WebSphere V8 servers and applications
- Unit 4: The WebSphere V8 web container
- Lab 3: Installing the WebSphere for z/OS V8 HTTP server plug-in

Day 4

- Unit 5: Network deployment
- Unit 6: Assembling and deploying a J2EE application
- Lab 4: Installing the network deployment environment
- Lab 5: (Optional) WebSphere connectors: JDBC lab
- Lab 6: (Optional): WebSphere proxy server
- Unit 7: WebSphere V8 security (Part 1)

Day 5

- Unit 7: WebSphere V8 security (Part 2)
- Unit 8: Accessing data: Connectors and Java messaging on WebSphere
- Unit 9: Liberty Profile, zAAPs, WLM and performance
- Lab 7: (Optional): WebSphere Liberty Profile

Über Fast Lane

Die weltweite Fast Lane-Gruppe ist Spezialist für Technologie- und Business-Training und Beratung im Highend-Bereich. Fast Lane ist autorisierter Trainingspartner führender Hersteller und bietet zudem eigene IT-Trainingsprogramme zu aktuellen Technologien und den wesentlichen Trends an. Herstellerübergreifende Beratungsleistungen reichen von vorbereitenden Analysen und Evaluierungen über die Konzipierung zukunftsweisender IT-Lösungen bis zum Projektmanagement und zur Umsetzung der Konzepte im Unternehmen. Training-on-the-Job und Weiterqualifizierung der zuständigen Spezialisten bei den Kunden verbinden die Kernbereiche der Fast Lane Dienstleistungen Training und Consulting.

Fast Lane Services

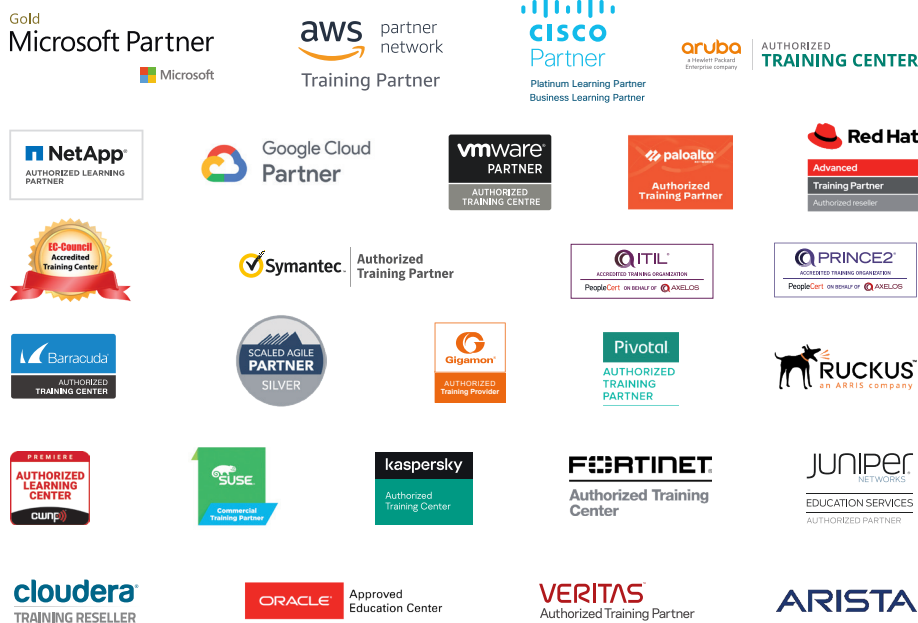

- ✓ Highend-Technologietraining
- ✓ Business- & Softskill-Training
- ✓ Consulting Services
- ✓ Managed Training Services
- ✓ Digitale Lernlösungen
- ✓ Content-Entwicklung
- ✓ Remote Labs
- ✓ Talentprogramme
- ✓ Eventmanagement-Services

Trainingsmethoden

- ✓ Klassenraumtraining
