

## z/OS Security Server RACF, Implementation and Customization (SZ81G)

**ID SZ81G** Preis 2.390,- € (exkl. MwSt.) **Dauer 4 Tage**

### Zielgruppe

This intermediate course are for:

- z/OS system programmers
- RACF administrators

### Voraussetzungen

You should have:

- Basic skills about z/OS, storage management and RACF.

### Kursziele

This course will teach you to implement and customize RACF on z/OS.

We will start creating and maintaining the RACF databases. The functions, a resource manager can use, to work with RACF as external security manager are discussed. A short overview about the RACF profiles and the administration of them is given.

RACF customization, like the class descriptor table and started procedure table, are discussed. This also includes performance and tuning of RACF.

Program control and the interaction between the storage management components and RACF is presented.

An overview about multilevel security is given.
