

# Oracle HCM Cloud: Extensibility (D101380)

ID D101380 Preis 854,- € (exkl. MwSt.) Dauer 1 Tag

## Kursüberblick

### Learn To:

- Activate a sandbox.
- Personalize applications.
- Configure the springboard.
- Configure a page by adding a hyperlink.
- Modify the theme on the Home Page layout.
- Modify the display order of Infolets.
- Modify page appearances.
- Configure a page by applying conditional changes.
- Renaming and Reordering Folder Tab.
- Reorder Fields on Job Table.
- Configuring Biographical Information on Page Composer.
- Viewing a Worker's Job and Position Name.
- Create and Update Descriptive Flexfields.
- Add and Configure (Contextual) Learning Association Component.

### Benefits to You

Ensure a smooth, rapid configuration of HCM applications. Better understand the configuration options to make improved decisions during implementation. Become more effective at personalizing Oracle HCM applications.

### Note

This course is relevant for any customers using Oracle HCM Cloud Applications through Release 11.1.13. It is beneficial for both Oracle Cloud and on-premises deployments.

### Zielgruppe

Implementation Consultant

### Voraussetzungen

Suggested Prerequisites:

- IOR-D96360

### Kursziele

- Configure HCM applications
- Create and work with sandboxes
- Configure the springboard
- Modify HCM page appearances
- Modify HCM themes
- Update descriptive fields

### Kursinhalt

#### Course Overview

- Lesson Agenda
- Course Objectives
- Course Audience
- Course Materials
- Information Sources

#### Extensibility Overview

- Objectives
- Application Implementation
- Personalization, Configuration, and Extension
- Configuring Components
- Run Time Changes
- Modifying the User Interface
- Configuration Navigation
- Adding User-Defined Attributes to Business Components Using Flexfields

#### Working with Sandboxes

- Objectives
- Sandboxes: Overview
- Working with Sandboxes
- Types of Sandboxes
- Types of Configurations in Sandboxes
- Multiple Users in Sandboxes
- Tips and Tricks About Sandboxes

## **User-Defined Configuration and Personalization**

- Configuration layers in Oracle Human Capital Management
- Configuration lifecycle to configure and deploy
- Working with Shared Components
- User-Defined Configurations
- Defining User-Interface Text Page
- Modifying Home Page and Themes
- Changing Infolets
- Configuring the Springboard

## **Working with Page Composer**

- Page Composer
- Configuring Page Components
- Adding Content
- Page Appearances
- Applying Conditional Changes
- Conditionally Set Read Only Property
- Configuring Approval Notifications
- Contextual Learning

## **Using Flexfields**

- Flexfield Concepts
- Flexfield Components
- Types of Flexfields
- Descriptive Flexfields
- Extensible Flexfields
- Protected Extensible Flexfield Data
- Ways to Deploy a Flexfield
- Flexfield Implementation Flow

## **Migration**

- Exporting and Moving User-Defined Configuration
- Customization Migration Page
- Content of Customization Sets
- Creating Customization Sets
- Viewing and Deleting Configurations
- Run Time Configurations
- Rolling Back, Downloading, and Uploading
- Page Composer Migration

## **Course Highlights**

- Course Summary
