

Oracle Policy Modeling for Policy Experts (D98213)

ID D98213 Preis 2.562,- € (exkl. MwSt.) Dauer 3 Tage

Kursüberblick

This course provides many hands-on exercises with Oracle's leading policy automation and modeling product. It is highly recommended for anyone working with Policy Modeling, or collaborating with a Policy Automation project team. All team members that complete the course will understand the key concepts and terminology for Policy Automation projects. The course is aimed at a non-technical audience, with a basic working knowledge of Microsoft Word being the only recommended prior knowledge.

- Identify how to author rules and other interview assets in another language
- Prevent a user from entering invalid combinations of data based on inferred logic
- Structure rules from source material and understand networks of rules
- Understand the role of explanations and audit reports in an Policy Automation interview
- Write rules in the negative form and link rules
- Write rules that compare values
- Prove conditional calculations using rule tables

Zielgruppe

- End Users
- Application Developers
- Business Analysts
- Project Manager
- Sales Consultants
- Data Modelers
- Administrator
- Team Leader

Kursziele

- Write a variety of rules in Policy Modeling
