

Data Protector 11.x VMware Integration (DP220-110)

ID DP220-110 Preis 1.500,- € (exkl. MwSt.) Dauer 2 Tage

Wichtige Hinweise für die Buchung von Open-Text-Trainings

Bitte beachten Sie, dass für die Teilnahme an einem Open-Text-Training Vorkasse zu leisten ist. Eine Teilnahme an einem Training ist für 12 Monate nach Kursbuchung möglich. Stornierungen sind ausgeschlossen. Weitere Informationen entnehmen Sie bitte unseren [Allgemeinen Geschäftsbedingungen](#).

Kursüberblick

This course demonstrates effective VMware Integration with the Data Protector (DP) application. It is designed for Data Protector Administrators who are responsible for protecting their VMware environment, or anyone wanting to implement and learn about the advanced and multifaceted VMware integration capabilities of Data Protector. These capabilities include the back up of a Virtual Machine (VM), a vAPP with many VMs, or an entire VMware Data Center. This course is based on DP 11. x and it is pluggable for DP 11.0 version training.

Participants learn the advantages of performing full, optimized full, incremental, and differential backups using Change Block Tracking (CBT). In addition, participants learn how the Granular Recovery Extension (GRE) is used to recover single files using either the staged non-cached method or the cached with StoreOnce and Smart Cache devices. The DP Advanced Web Plug-in allows easy single file recovery and is explained in detail. During the lab, the student performs cached and non-cached single file recovery. The ZDB VMware integration allows you to back up a large number of VMs with nearly no performance issues.

During the labs, students bring back their virtual machines using Power On and Live Migrate using a StoreOnce.

Zielgruppe

The course is designed for Data Protector/Windows/Network administrators who are responsible for VMware backup and Recovery within their environment.

Voraussetzungen

To be successful in this course, you should have the following prerequisites or knowledge:

- Completion of Data Protector 11.x Essentials course or equivalent working knowledge
- Basic knowledge of VMware

Kursziele

Upon successful completion of this course, you should be able to:

- Describe the basic feature of VMware-based virtualized environments
- Explain VMware technologies and features used by Micro Focus Data Protector
- Describe the Data Protector Virtual Environment Agent (VEAgent)
- Explain the Data Protector Power On and Live Migration feature
- Explain the Data Protector VMware Granular Recovery Extension (GRE)
- Describe the Zero Downtime Backup (ZDB) Integration for VMware

Kursinhalt

- Module 1: Course Overview
- Module 2: What's New in Data Protector 11. x
- Module 3: VMware Basics
- Module 4: VMware Technologies
- Module 5: VEAgent
- Module 6: Power On and Live Migration
- Module 7: Data Protector VMware GRE
- Module 8: ZDB Integration for VMware
- Module 9: Additional Features of Data Protector

Detaillierter Kursinhalt

Module 1: Course Overview

- Introduce the course overview, agenda, and logistics

- Explain the basic functionality of the VM Explorer
- Use the vepa_util.exe command
- Switch on debugging

Module 2: What's New in Data Protector 11. x

- Explain new enhancements and features of Data Protector 11.0

Module 3: VMware Basics

- Describe the VMware core components and features of a typical VMware environment
- Work with VMware's vSphere clients

Module 4: VMware Technologies

- Use Change Block Tracking (CBT)
- Describe Quiescence
- Explain the VMware Snapshot technology
- Describe the different transportation modes
- Explain VMware vVol and 3PAR Virtual Volume
- Describe the VMware Tools

Module 5: VEAgent

- Describe the advantages of the VEAgent
- Install the VEAgent
- Create a backup specification
- Use the different options of a backup specification
- Describe the different ways to restore a VM

Module 6: Power On and Live Migration

- Explain the concepts of the Data Protector Power On and Live Migration feature
- Perform Power On and Live Migration restores
- Identify the Power On and Live Migration limitations

Module 7: Data Protector VMware GRE

- Explain the concept of the DP VMware Granular Recovery Extension (GRE) module
- Describe cached and non-cached GRE
- Perform single file restores from backed up VMs using the VMware GRE module

Module 8: ZDB Integration for VMware

- Explain the VMware ZDB backup concept
- Configure the VMware ZDB backups in DP
- Restore VMs from a VMware ZDB backup

Module 9: Additional Features of Data Protector

- Describe the DP virtualization support matrices

Über Fast Lane

Fast Lane ist weltweit, mehrfach ausgezeichnete(r) Spezialist für Technologie und Business-Trainings sowie Beratungsleistungen zur digitalen Transformation. Als einziger globaler Partner der drei Cloud-Hyperscaler Microsoft, AWS und Google und Partner von 30 weiteren führenden IT-Herstellern bietet Fast Lane beliebig skalierbare Qualifizierungslösungen und Professional Services an. Mehr als 4.000 erfahrene Fast Lane Experten trainieren und beraten Kunden jeder Größenordnung in 90 Ländern weltweit in den Bereichen Cloud, künstliche Intelligenz, Cybersecurity, Software Development, Wireless und Mobility, Modern Workplace sowie Management und Leadership Skills, IT- und Projektmanagement.

Fast Lane Services

- ✓ Highend-Technologietraining
- ✓ Business- & Softskill-Training
- ✓ Consulting Services
- ✓ Managed Training Services
- ✓ Digitale Lernlösungen
- ✓ Content-Entwicklung
- ✓ Remote Labs
- ✓ Talentprogramme
- ✓ Eventmanagement-Services

Trainingsmethoden

- ✓ Klassenraumtraining
- ✓ Instructor-Led Online Training
- ✓ FLEX Classroom – Klassenraum und ILO kombiniert
- ✓ Onsite & Customized Training
- ✓ E-Learning
- ✓ Blended & Hybrid Learning
- ✓ Mobiles Lernen

Technologien und Lösungen

- ✓ Digitale Transformation
- ✓ Artificial Intelligence (AI)
- ✓ Cloud
- ✓ Networking
- ✓ Cyber Security
- ✓ Wireless & Mobility
- ✓ Modern Workplace
- ✓ Data Center

Weltweit vertreten
mit High-End-Trainingszentren
rund um den Globus
