

SMAX administration for Suite Administrators (**SMAX320**)

ID SMAX320 Preis 1.600,— € (exkl. MwSt.) Dauer 2 Tage

Wichtige Hinweise für die Buchung von Open-Text-Trainings

Bitte beachten Sie, dass für die Teilnahme an einem Open-Text-Training Vorkasse zu leisten ist. Eine Teilnahme an einem Training ist für 12 Monate nach Kursbuchung möglich. Stornierungen sind ausgeschlossen. Weitere Informationen entnehmen Sie bitte [unseren Allgemeinen Geschäftsbedingungen](#).

Kursüberblick

This course covers how a suite administrator will use Service Management Automation X (SMAX) to perform administrative tasks related to Service Management automation in the Suite Administration application. SMAX is a new suite designed to simplify the way businesses manage their IT services and assets. It uses the Information Technology Infrastructure Library (ITIL)-compliant IT processes with embedded machine learning and contextual analytics.

You are a suite administrator who wants to perform administration tasks for the Service Management Automation suite. You want to set up SMAX from configuring an email server to creating or importing a customer, account, user, license, license pools, and tenant. You will add the created users to the account, licenses to the license pools, assign a license to the tenant, and deploy the tenant. You also configure suite level settings in Configurations, including security, email, and integration, view the operation history, and configure access control. From configuring, creating, importing, assigning, adding, managing, administering, and analyzing these suite administrative operations, you will learn how SMAX helps in this and future situations. You are new to SMAX.

This course is applicable for SMAX 2018.02, 2018.05, 2018.08, 2018.11, 2019.02 and 2019.05 versions. However, the hands-on lab exercises in this course use SMAX 2019.05.

Zielgruppe

This course is intended for Suite Administrators.

Voraussetzungen

To be successful in this course, you should have the following prerequisites or knowledge:

- Familiarity with different roles in an IT service management environment
- Familiarity with different flavors of the user interfaces provided by SMAX
- Familiarity with different versions of the SMAX available

Kursziele

- Describe suite administration
- Configure a mail server
- Create a customer
- Create and edit an account
- Add a user to the account
- Create a trial license
- Create a license pool and add a license to the pool
- Create a tenant, assign a license, and deploy the tenant
- Export and import the tenants
- Clone a tenant
- Setup a multi-tenant environment
- Configure LW-SSO and view LDAP settings
- Manage Smart Analytics at the suite level
- Set intervals for IDOL based search and define License Expiration Notification

Kursinhalt

Lesson 1: Course Overview

- Introduce the course overview, agenda, and logistics
- List the available SMAX courses
- Launch the Digital Learning course
- Access the lab environment

Lesson 2: Mail Server Configuration

- Explain the administrative tasks
- Explore the suite administration application
- Explain back office
- Explain the mail server
- Explain about SMTP and EWS

- Configure an email service

Lesson 3: Customer, Account, and User Management

- Access the customer, account, and user area in the back office portal
- Create a new customer
- Create and manage a new account
- Add users to the account with the required features and settings

Lesson 4: License Management

- Access the license and license pool area in the back office portal
- Creating a trial license
- Create a license pool and add it to the license

Lesson 5: Tenant Administration

- Navigate the tenant management area
- Explain different types of tenants – Production, DEV, Internal, Trial
- Create a tenant
- Assign a license to the tenant
- Deploy the tenant
- Export a tenant
- Import a tenant
- Clone a tenant
- Explain about the multi-tenant environment

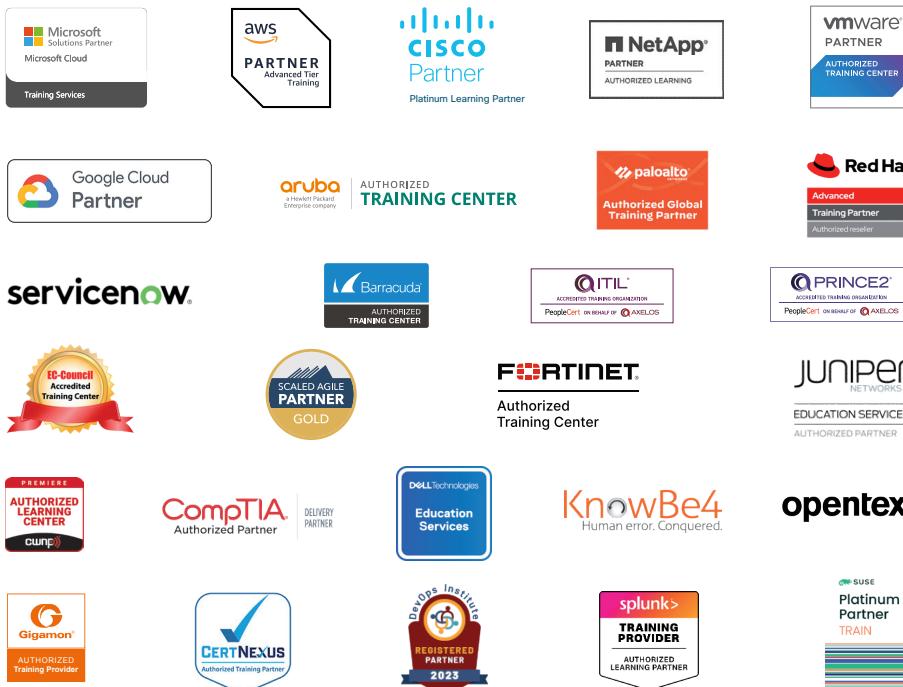

Lesson 6: Configuration Management

- Access the Configuration area
- Explain about Single sign-on
- View the Lightweight Direct Access Protocol (LDAP) settings for configuration management system
- Manage smart analytics at the suite level
- Explain IDOL (Intelligent Data Operating Layer)
- Set intervals for IDOL bases search
- Define license expiration notifications duration

Über Fast Lane

Fast Lane ist weltweiter, mehrfach ausgezeichneter Spezialist für Technologie und Business-Trainings sowie Beratungsleistungen zur digitalen Transformation. Als einziger globaler Partner der drei Cloud-Hyperscaler Microsoft, AWS und Google und Partner von 30 weiteren führenden IT-Herstellern bietet Fast Lane beliebig skalierbare Qualifizierungslösungen und Professional Services an. Mehr als 4.000 erfahrene Fast Lane Experten trainieren und beraten Kunden jeder Größenordnung in 90 Ländern weltweit in den Bereichen Cloud, künstliche Intelligenz, Cybersecurity, Software Development, Wireless und Mobility, Modern Workplace sowie Management und Leadership Skills, IT- und Projektmanagement.

Fast Lane Services

- ✓ Highend-Technologietraining
