

Engineering Cisco Meraki Solutions Part 1 (ECMS1)

ID ECMS1 **Price** 995.— €(excl. tax) **Duration** 1 day

This course has been retired and replaced by the course [Engineering Cisco Meraki Solutions \(ECMS\)](#).

Course Overview

The Engineering Cisco Meraki Solutions Part 1 (ECMS1) v2.0 is an introductory course that equips you with the technical knowledge and skills to confidently operate Cisco Meraki solutions as a unified management system of an entire network from a centralized dashboard.

Through a full day of instruction including live demos and guided lab practice, you will learn how to implement core configurations for a full stack solution in the Meraki Dashboard and leverage essential Meraki Dashboard tools to enforce device security policies, deploy software and apps, and perform remote, live troubleshooting on managed devices. This is the first of two courses that prepare you for the Cisco Meraki Solutions Specialist certification exam.

This course will help you:

- Learn the skills, technologies, and best practices you need to deploy Cisco Meraki solutions and operate the Meraki platform
- Validate your knowledge and prepare to take the Cisco Meraki Solutions Specialist certification exam

Who should attend

This course is designed for:

- Meraki operators interested in introductory-level technical training or in preparing for the Cisco Meraki Solutions Specialist certification
- Anyone who would like to gain experience in understanding, configuring, and troubleshooting Meraki networking environments with the Meraki Dashboard

*If you have already taken CMNO, we do not recommend that you enroll in the course as the content is the same.

The course is also ideal for those who hold the following titles:

- Consulting Systems Engineer
- Deployment Engineer
- Network Administrator
- Network Engineer
- Network Manager
- Site Reliability Engineer
- Systems Engineer
- Technical Solutions Architect
- Wireless Design Engineer
- Wireless Engineer

Prerequisites

Before taking this course, you should have earned a CCNA certification or be familiar with:

- Basic network fundamentals and building simple LANs
- Basic IP addressing and subnets
- Routing and switching fundamentals
- Basic wireless networking concepts and terminology

The following recommended Cisco offering may help you meet these prerequisites:

- [Implementing and Administering Cisco Solutions \(CCNA\) v2.1](#)

Course Objectives

After taking this course, you should be able to:

- Describe cloud architecture, administration, and licensing
- Understand hardware and features of all product families
- Implement best practices for troubleshooting and when to contact support

Detailed Course Outline

Describing the Cloud and the Cisco Meraki Dashboard

- Single Pane of Glass Management
- Cisco Meraki Full Stack Capabilities

Describing Cisco Meraki Products and Administration

- Cisco Meraki MX Security and SD-WAN Appliance
- Cisco Meraki MS Switches

Describing Cisco Meraki Troubleshooting

- Cisco Meraki Dashboard Sync and Real-Time Tools
- Integration of Cisco Meraki Monitoring and Troubleshooting Tools in Existing Systems

Lab outline

Configuring the Cisco Meraki Dashboard

- Basic initial device setup

Enable Advanced Features and Optimize Networking

- Enable advanced cisco Meraki dashboard features and optimize network

Troubleshooting the Network using the Cisco Meraki Dashboard

- Troubleshoot and fine-tune the network and wireless configuration

About Fast Lane

Fast Lane is a global, award-winning specialist in technology and business training as well as consulting services for digital transformation. As the only global partner of the three cloud hyperscalers- Microsoft, AWS and Google- and partner of 30 other leading IT vendors, Fast Lane offers qualification solutions and professional services that can be scaled as needed. More than 4,000 experienced Fast Lane professionals train and advise customers in organizations of all sizes in 90 countries worldwide in the areas of cloud, artificial intelligence, cyber security, software development, wireless and mobility, modern workplace, as well as management and leadership skills, IT and project management.

Fast Lane Services

- ✓ High End Technology Training
- ✓ Business & Soft Skill Training
- ✓ Consulting Services
- ✓ Managed Training Services
