FortiNAC (FORT-NAC)

This training is provided by our partner Fortinet.

Important notes for the booking of trainings directly provided by Fortinet

If you are unable to attend the training date you have booked (e.g. illness, etc.) or if Fortinet cancels the course, a credit note is not possible under any circumstances. In both cases of cancellation, the validity of your credit remains for 12 months after the order.

For more information, please refer to the **Fortinet Terms and Conditions**.

Course Overview

In this course, you will learn how to leverage the powerful and diverse capabilities of FortiNAC, using best practices for achieving visibility, control, and response. These fundamentals will provide you with a solid understanding of how to implement network visibility and security automation.

Certification- This course is intended to help you prepare for the Fortinet NSE 6 - FortiNAC 7.2 certification exam. This exam is part of the Fortinet Certified Professional - Network Security certification track.

Who should attend

Network and security administrators, managers, and other IT staff that will use FortiNAC should attend this course.

Prerequisites

It is recommended that you have an understanding of the following topics:

- Networking concepts and terms
- Networking protocols
- Infrastructure configurations

Course Objectives

After completing this course, you should be able to:

- Configure a FortiNAC system to achieve network visibility
- Leverage the control capabilities for network access and automated policy enforcement
- Integrate FortiNAC into the Security Fabric
- Combine the visibility and control features with security device integrations to automate threat responses to security risks

Detailed Course Outline

- 1. Introduction and Initial Configuration
- 2. Achieving Network Visibility
- 3. Identification and Classification of Rogues
- 4. Visibility, Troubleshooting, and Logging
- 5. Logical Networks, Fortinet Security Fabric, and Firewall Tags
- 6. State-Based Control
- 7. Security Policies
- 8. Guest and Contractor Management
- 9. Security Device Integration and Automated Response
- 10. FortiGate VPN, High Availability and FortiNAC Control Manager Integrations
