

FortiSASE Enterprise Administrator (SASE)

ID SASE **Price** US \$ 1,900.—(excl. tax) **Duration** 2 days

This training is provided by our partner Fortinet.

Important notes for the booking of trainings directly provided by Fortinet

If you are unable to attend the training date you have booked (e.g. illness, etc.) or if Fortinet cancels the course, a credit note is not possible under any circumstances. In both cases of cancellation, the validity of your credit remains for 12 months after the order.

For more information, please refer to the [Fortinet Terms and Conditions](#).

Course Overview

In this course, you will learn about FortiSASE and its enterprise capabilities, including branch deployment, secure private access (SPA), advanced endpoint profile settings, and centralized management and analytics. You will also learn how to design, deploy, and manage FortiSASE to support secure internet access (SIA) and secure private applications across multiple branches and geographic locations. This course will provide you with advanced knowledge of FortiSASE that will help you implement centralized policy management, apply zero trust network access (ZTNA), compliance checks, and provide enhanced visibility through user monitoring and security logs.

This course is intended to help you prepare for the Fortinet NSE 7 - FortiSASE Enterprise Administrator exam. This exam is part of the FCSS SASE certification track.

Who should attend

Networking and security professionals involved in the design, administration, and management of FortiSASE-based network deployment should attend this course.

This course is part of the following Certifications

Fortinet Certified Solution Specialist SASE (FCSSSASE)

Prerequisites
