- <https://fndn.fortinet.net/>

Important notes for the booking of trainings directly provided by Fortinet

If you are unable to attend the training date you have booked (e.g. illness, etc.) or if Fortinet cancels the course, a credit note is not possible under any circumstances. In both cases of cancellation, the validity of your credit remains for 12 months after the order.

For more information, please refer to the [Fortinet Terms and Conditions](#).

Course Overview

In this course, you will learn how to deploy and manage FortiSASE to provide secure internet access and protect access to Software-as-a-Service (SaaS) applications for users working from on-site or remote locations. These topics will help you build a fundamental knowledge of FortiSASE basics, and learn how to enforce security policies using endpoint profiles and content inspection.

This course is intended to help you prepare for the Fortinet NSE 5 - FortiSASE and SD-WAN Core Administrator exam. This exam is part of the FCP SASE certification track.

Who should attend

Networking and security professionals involved in the design, administration, and management of FortiSASE-based network deployment should attend this course.

Prerequisites

- [FortiOS Administrator \(OS-ADM\)](#)
- [FortiClient EMS Administrator \(FORT-CLIENTEMS\)](#)

Lab Prerequisites

To run the labs for the FortiSASE Core Administrator course, you must have access to the following URLs:

Course Objectives

After completing this course, you will be able to:

- Describe the SASE architecture
- Construct FortiSASE deployment cases
- Identify the SASE components
- Describe the Fortinet SASE solution
- Integrate FortiSASE into a hybrid network
- Describe the different FortiSASE solutions
- Describe different authentication methods on FortiSASE
- Configure security profile groups and security components
- Configure different types of FortiSASE policies
- Deploy supported FortiSASE use cases
- Configure FortiView monitors
- Configure and generate reports
- Configure dashboards

Detailed Course Outline

- Introduction to SASE and FortiSASE
- Deployment Fundamentals
- SIA and SSA
- Basic Security and Endpoint Profiles
- Monitoring and Reporting

About Fast Lane

Fast Lane is a global, award-winning specialist in technology and business training as well as consulting services for digital transformation. As the only global partner of the three cloud hyperscalers- Microsoft, AWS and Google- and partner of 30 other leading IT vendors, Fast Lane offers qualification solutions and professional services that can be scaled as needed. More than 4,000 experienced Fast Lane professionals train and advise customers in organizations of all sizes in 90 countries worldwide in the areas of cloud, artificial intelligence, cyber security, software development, wireless and mobility, modern workplace, as well as management and leadership skills, IT and project management.
