Enhance endpoint security with Microsoft Intune and Microsoft Security Copilot (MD-4011)

ID MD-4011 **Price** 690.— €(excl. tax) **Duration** 1 day

Course Overview

This Course will empower IT professionals and security analysts with the expertise to utilize Microsoft Intune and Microsoft Security Copilot effectively in device management and security operations. This course directs learners towards optimizing Intune for enhanced security and integrating Security Copilot to strengthen their organization's security stance.

Who should attend

This course is designed for Endpoint Administrators and Security Analysts proficient in basic device management and security operations.

Prerequisites

- Basic understanding of IT security principles.
- Familiarity with Microsoft Intune.
- Experience with device management in an enterprise environment.
- Knowledge of Microsoft Entra ID.
- Access to Microsoft Intune and Copilot for Security tools for hands-on practice.

Course Content

Discover Microsoft Intune essentials

In this module, you'll learn about Microsoft Intune, a comprehensive tool designed to manage and secure devices, applications, and data within an organization.

- Introduction
- Explore core features of Microsoft Intune
- Understand device management capabilities
- Effectively secure and manage applications
- Integrate security and compliance
- Optimize deployment strategies with Intune
- Unify management across platforms with Microsoft Intune

- Module assessment
- Summary

Unlock Insights with Microsoft Security Copilot

This module introduces Microsoft Security Copilot, an AI-powered security solution designed to enhance the efficiency of security professionals.

- Introduction
- Discover Microsoft Security Copilot
- Understand How Microsoft Security Copilot Works
- Explore Microsoft Security Copilot Experiences
- Deploy Microsoft Security Copilot for Enhanced Security
- Utilize Prompts in Microsoft Security Copilot
- Incorporate Promptbooks in Microsoft Security Copilot
- Explore New Features in Microsoft Security Copilot
- Module assessment
- Summary

Optimize Microsoft Intune for Microsoft Security Copilot Integration

Learn about Microsoft Security Copilot and Intune for securing corporate IT. Enhance security operations, get contextual responses, and improve incident response. Implement naming conventions and manage devices efficiently.

- Introduction
- Understand the benefits of Microsoft Security Copilot and Intune
- Implement strong naming conventions
- Rename a device in Microsoft Intune
- Add groups in Microsoft Intune to organize users and devices
- Understand authentication in Microsoft Security Copilot
- Integrate Microsoft Security Copilot with Microsoft Intune
- Leverage prompting features in Microsoft Security Copilot
- Sample prompts for Microsoft Intune
- Module assessment
- Summary

About Fast Lane

Fast Lane

Fast Lane is a global, award-winning specialist in technology and business training as well as consulting services for digital transformation. As the only global partner of the three cloud hyperscalers- Microsoft, AWS and Google- and partner of 30 other leading IT vendors, Fast Lane offers qualification solutions and professional services that can be scaled as needed.
