

OpenText™ Professional Performance Engineering for Advanced Scripting and Integration (4-5711)

ID 4-5711 Price 1,600.— €(excl. tax) Duration 2 days

Important notes for the booking of Open Text trainings

Please note that prepayment is required for participation in an Open Text training course. Participation in a training course is possible for 12 months after booking the course. Cancellations are excluded. For further information, please refer to our [General Terms and Conditions](#).

Course Overview

This course is designed as a refresher for the OpenText™ Professional Performance Engineering course and covers advanced features, with hands-on practice in scenario design, CI/CD integration, and performance optimization through secure communication, network virtualization, and chaos testing.

Prerequisites

Should have a basic knowledge of the features and functionalities of OpenText Professional Performance Engineering.

Course Objectives

On completion of this course, participants should be able to:

- Describe the overview of performance testing and the OpenText Performance Engineering family of solutions.
- Refresh the essential features of OpenText Professional Performance Engineering.
- Design scenario using Run Modes\ Distribute Workloads.
- Add Unified Functional Testing (UFT) script in the performance scenario.
- Define secure communication with TLS (SSL) – Controller and LG.
- Describe integration with CI/CD and external monitoring tools.
- Configure analysis options, graphs, templates, and reports.
- Design and run NV test.
- Describe the NV Insights Report.

- Gain insights on integration with Influx and Grafana.
- Explain OpenText Performance Engineering (PE) for Developers.
- Describe chaos testing using Gremlin and Steadybit integration in OpenText Professional Performance Engineering.

Course Content

This course will guide you through the advanced features of OpenText Professional Performance Engineering. The course describes advanced scenario creation, workload modeling, analysis, and reporting. Introducing integration with CI/CD tools, external monitoring tools, Influx, Grafana, and shifting left, utilizing Performance Engineering for Developer scripts in OpenText Professional Performance Engineering. A detailed look at secure communication with Load Generators, Network Virtualization (NV), and chaos testing.

This course is aimed at helping you gain knowledge about advanced features of performance engineering tasks utilizing Professional Performance Engineering. The hands-on lab exercises are intended to give you a platform for acquiring real-time experience with these functionalities.

Highlights:

- Refresh your knowledge of the OpenText Professional Performance Engineering course.
- Configure secure communication with Load Generators.
- Design and execute performance tests using Jenkins.
- Perform NV performance test and analyze the Insights report.
- Integrate Influx and Grafana.
- Apply shift-left performance testing principles.
- Perform chaos Testing.

About Fast Lane

Fast Lane is a global, award-winning specialist in technology and business training as well as consulting services for digital transformation. As the only global partner of the three cloud hyperscalers- Microsoft, AWS and Google- and partner of 30 other leading IT vendors, Fast Lane offers qualification solutions and professional services that can be scaled as needed. More than 4,000 experienced Fast Lane professionals train and advise customers in organizations of all sizes in 90 countries worldwide in the areas of cloud, artificial intelligence, cyber security, software development, wireless and mobility, modern workplace, as well as management and leadership skills, IT and project management.

Fast Lane Services

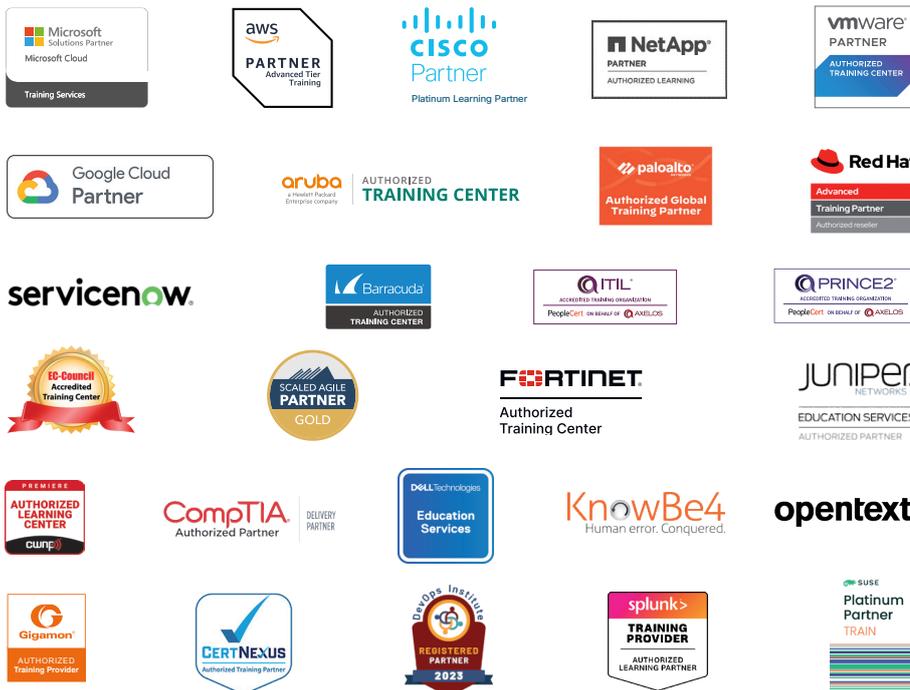

- ✓ High End Technology Training
- ✓ Business & Soft Skill Training
- ✓ Consulting Services
- ✓ Managed Training Services
- ✓ Digital Learning Solutions
- ✓ Content Development
- ✓ Remote Labs
- ✓ Talent Programs
- ✓ Event Management Services

Training Methods

- ✓ Classroom Training
- ✓ Instructor-Led Online Training
- ✓ FLEX Classroom – Classroom & Online Hybrid
- ✓ Onsite & Customized Training
- ✓ E-Learning
- ✓ Blended & Hybrid Learning
- ✓ Mobile Learning

Technologies & Solutions

- ✓ Digital Transformation
- ✓ Artificial Intelligence
- ✓ Cloud
- ✓ Networking
- ✓ Cyber Security
- ✓ Wireless & Mobility
- ✓ Modern Workplace
- ✓ Data Center

Worldwide Presence
with high-end training centers
around the globe

Multiple Awards
from vendors such as AWS,
Microsoft, Cisco, Google, NetApp,
VMware

Experienced SMEs
with over 19.000 combined
certifications
