

NetIQ Identity Manager Administration (NIMA)

ID NIMA Price 3,200.— €(excl. tax) Duration 4 days

Important notes for the booking of Open Text trainings

Please note that prepayment is required for participation in an Open Text training course. Participation in a training course is possible for 12 months after booking the course. Cancellations are excluded. For further information, please refer to our [General Terms and Conditions](#).

Course Overview

This course is a direct replacement for the IDM250 – IDM Administration course.

This training is designed to help students become knowledgeable with the latest version of Identity Manager Administration. To bring pre-existing customers and systems integrators up to date with the new features and functionality of the product, beginning with the process required to facilitate bringing the installation to the 4.8.7 level.

The content is streamlined while introducing some of the newest features, such as the Identity Console as well as the Validator tool.

Highlights:

- Introduction to the OpenText™ Identity and Access Management products
- Describe the basics of LDAP
- Import Data and execute Analysis
- Write Metrics and clean Scripts
- Explain the basic Theory of Operation of IDM
- Describe the Identity Console
- Create Certificates
- Launch the Identity Console and import a project
- Import a Driver and Packages into the Designer
- Install/configure a MYSQL Driver along with install/configure the Active Directory Driver
- Launch and create a Test Suite with Validator
- Create a Custom Policy
- Overview of capturing Traces configuring DSTrace
- Describe password synchronization features

Who should attend

System Administrators, System Integrators, Identity Consultants, Identity Architects, and Project Managers.
