

UFT One 2021.x Advanced (UFTO350-2021)

ID UFTO350-2021 Price 1,500.— €(excl. tax) Duration 2 days

Important notes for the booking of Open Text trainings

Please note that prepayment is required for participation in an Open Text training course. Participation in a training course is possible for 12 months after booking the course. Cancellations are excluded. For further information, please refer to [our General Terms and Conditions](#).

Course Overview

This course provides a comprehensive understanding of how to leverage and enhance the various features of UFT One by writing test scripts in the Editor. In this course, participants adopt principles frequently followed by developers as they design more sophisticated test scripts. By learning to manipulate dynamic objects and data, participants will learn a skill set applicable for testing nearly any type of application.

The hands-on labs for this course use version 2021 of the UFT One software.

Who should attend

Quality Assurance engineers or any new users of UFT One.

Prerequisites

To be successful in this course, you should have the following prerequisites or knowledge:

- Working knowledge of Windows and web browsers
- Experience with programming or scripting languages

Course Objectives

Upon successful completion of this course, you should be able to:

- List the main components of the Editor
- Identify when to use the Editor

- Retrieve and use the properties of an object
- Create programmatic descriptions
- Create tests that include VBScript
- Retrieve data from application objects
- Use the Data Table object to store run-time data and drive actions
- Create scripts that access data from external sources
- Create new subroutines and functions
- Use the Function Library editor
- Identify when to handle exceptions programmatically

Course Content

- Course Overview
- Introduction to the Editor
- Using the Editor
- Using VBScript
- Working with Object Properties
- Working with Dynamic Data
- Working with Dynamic Objects
- Retrieving External Data
- Handling GUI Testing Exceptions
- Creating New Procedures
- Integrating UFT One with ALM

Detailed Course Outline

Module 1: Course Overview

- Identify the contents and objectives of the course
- Define the class schedules and class logistics
- Identify the related courses
- Discuss the lab environment details

Module 2: Introduction to the Editor

- Identify the advantages of the Editor
- Translate steps between the Keyword view and the Editor view
- Explain how VBScript and objects are relevant to Unified Functional Testing One (UFT One) for GUI testing
- List common test objects and methods used in UFT One for GUI testing

Module 3: Using the Editor

- Use the Step Generator to create new steps in your test
- Enter steps manually in the Editor
- Document the steps of a business process
- Use statement completion (IntelliSense)
- Trace and debug tests

Module 4: Using VBScript

- Create constants and variables to hold important values
- Format steps and create comments for clarity
- Use operators to modify or compare values
- Build conditional statements
- Call built-in functions from the VBScript function library

Module 5: Working with Object Properties

- Retrieve any property of any object in the application during a test run
- Retrieve and set properties in the object repository
- Use additional properties of the Reporter utility object

Module 6: Working with Dynamic Data

- Retrieve useful properties from list-type objects
- Describe the VBScript looping statements
- Use additional methods to explore the Data Table

Module 7: Working with Dynamic Objects

- Identify types of dynamic objects
- Manage the dynamic properties of objects in the object repository
- Build a programmatic description for an object
- Create and use a Description object
- Retrieve a collection of child objects from a parent object

Module 8: Retrieving External Data

- Build scripts that access data from external sources
- Import data from and export data to a Microsoft Excel worksheet
- Perform DataTable operations
- Use the Connection and RecordSet objects to query a database
- Import and export data to text files

Module 9: Handling GUI Testing Exceptions

- Describe exceptions in a test
- Describe how to handle exceptions with the test settings
- Describe how to handle exceptions with Recovery Scenarios
- Handle exceptions programmatically with VBScript

- Handle positive and negative test data

Module 10: Creating New Procedures

- Identify the advantages of creating a procedure in a test
- Create new subroutines and functions
- Build a function library and associate it with a test
- Register a procedure with an object class
- Use a function as a recovery operation in a recovery scenario

Module 11: Integrating UFT One with ALM

- Integrate UFT One with the Application Lifecycle Management (ALM) software
- Connect to the ALM Server from UFT One
- Execute a UFT One Test from ALM

About Fast Lane

Fast Lane is a global, award-winning specialist in technology and business training as well as consulting services for digital transformation. As the only global partner of the three cloud hyperscalers- Microsoft, AWS and Google- and partner of 30 other leading IT vendors, Fast Lane offers qualification solutions and professional services that can be scaled as needed. More than 4,000 experienced Fast Lane professionals train and advise customers in organizations of all sizes in 90 countries worldwide in the areas of cloud, artificial intelligence, cyber security, software development, wireless and mobility, modern workplace, as well as management and leadership skills, IT and project management.

Fast Lane Services

- ✓ High End Technology Training
- ✓ Business & Soft Skill Training
- ✓ Consulting Services
- ✓ Managed Training Services
- ✓ Digital Learning Solutions
- ✓ Content Development
- ✓ Remote Labs
- ✓ Talent Programs
- ✓ Event Management Services

Training Methods

- ✓ Classroom Training
- ✓ Instructor-Led Online Training
- ✓ FLEX Classroom – Classroom & Online Hybrid
- ✓ Onsite & Customized Training
- ✓ E-Learning
- ✓ Blended & Hybrid Learning
- ✓ Mobile Learning

Technologies & Solutions

- ✓ Digital Transformation
- ✓ Artificial Intelligence
- ✓ Cloud
- ✓ Networking
- ✓ Cyber Security
- ✓ Wireless & Mobility
- ✓ Modern Workplace
- ✓ Data Center

Worldwide Presence
with high-end training centers
around the globe

Multiple Awards
from vendors such as AWS,
Microsoft, Cisco, Google, NetApp,
VMware

Experienced SMEs
with over 19.000 combined
certifications
