

Vertica Essentials (VERTE)

ID VERTE Price 2,400.— €(excl. tax) Duration 3 days

Important notes for the booking of Open Text trainings

Please note that prepayment is required for participation in an Open Text training course. Participation in a training course is possible for 12 months after booking the course. Cancellations are excluded. For further information, please refer to [our General Terms and Conditions](#).

Course Overview

The Vertica Essentials course covers the architecture and capabilities of Vertica Analytics in Enterprise mode. This course is a prerequisite to all advanced courses and will prepare you for the operational success of your deployment.

Highlights:

- Describe the Vertica data architecture
- Manage data within a Vertica database, including loading and removing data
- Describe how SQL queries are executed
- Modify the database structure for optimal query execution
- Manage database users

Who should attend

Database Administrators

Prerequisites

To be successful in this course, you should have the following prerequisites or knowledge:

- Knowledge of RDBMS concepts (understanding databases and schemas, database normalization, etc.)
- Familiarity with basic SQL syntax, ability to troubleshoot syntax errors, etc.
- Experience with the Linux operating system (how to change directories, list directory contents, view and edit files, etc.)

Course Objectives

On completion of this course, participants should be able to:

- Describe Vertica's database and data storage structures
- Load and remove data from a Vertica database
- Optimize the database to improve query performance
- Create and manage database users
- Back up and restore a Vertica database

Course Content

- Module 1: Introduction to the Training Environment
- Module 2: Vertica Overview
- Module 3: Introduction to Projections
- Module 4: Loading Data
- Module 5: Query Execution
- Module 6: Optimizing Database Design
- Module 7: Removing Data
- Module 8: Database User Management
- Module 9: Table Access Privileges
- Module 10: Database Backup and Restore

Detailed Course Outline

Module 1: Introduction to the Training Environment

- Log in to the training environment
- Review the training environment configuration
- Introduction to Management Console
- Using the valab utility

Module 2: Vertica Overview

- Describe the building blocks of the Vertica platform

Module 3: Introduction to Projections

- Identify basic projection types
- Read a projection DDL to determine its structure
- Describe the benefits of projections

Module 4: Loading Data

- Review the structure of tables and projections
- Load data using the COPY command
- Manually run the Tuple Mover mergeout task
- Monitor data loads using Management Console and vsql

Module 5: Query Execution

- Generate a query plan
- Time a query
- Profile a query
- Identify the database epochs

Module 6: Optimizing Database Design

- Create a comprehensive database design using Management Console

Module 7: Removing Data

- Remove data by dropping and truncating tables
- Bulk delete data from tables
- Purge delete vectors

Module 8: Database User Management

- Create new database users
- Create new database user roles
- Assign a role to a user
- Create a role hierarchy

Module 9: Table Access Privileges

- Assign inheritable privileges to a database schema
- Limit access to database columns and rows by role
- Restrict non-administrator access to system tables

Module 10: Database Backup and Restore

- Create a backup configuration file
- Back up and restore the database
- Monitor database backups
- Replicating objects
- Duplicating a cluster

About Fast Lane

Fast Lane is a global, award-winning specialist in technology and business training as well as consulting services for digital transformation. As the only global partner of the three cloud hyperscalers- Microsoft, AWS and Google- and partner of 30 other leading IT vendors, Fast Lane offers qualification solutions and professional services that can be scaled as needed. More than 4,000 experienced Fast Lane professionals train and advise customers in organizations of all sizes in 90 countries worldwide in the areas of cloud, artificial intelligence, cyber security, software development, wireless and mobility, modern workplace, as well as management and leadership skills, IT and project management.

Fast Lane Services

- ✓ High End Technology Training
- ✓ Business & Soft Skill Training
- ✓ Consulting Services
- ✓ Managed Training Services
- ✓ Digital Learning Solutions
- ✓ Content Development
- ✓ Remote Labs
- ✓ Talent Programs
- ✓ Event Management Services

Training Methods

- ✓ Classroom Training
- ✓ Instructor-Led Online Training
- ✓ FLEX Classroom – Classroom & Online Hybrid
- ✓ Onsite & Customized Training
- ✓ E-Learning
- ✓ Blended & Hybrid Learning
- ✓ Mobile Learning

Technologies & Solutions

- ✓ Digital Transformation
- ✓ Artificial Intelligence
- ✓ Cloud
- ✓ Networking
- ✓ Cyber Security
- ✓ Wireless & Mobility
- ✓ Modern Workplace
- ✓ Data Center

Worldwide Presence
with high-end training centers
around the globe

Multiple Awards
from vendors such as AWS,
Microsoft, Cisco, Google, NetApp,
VMware

Experienced SMEs
with over 19.000 combined
certifications
