Important notes for the booking of ServiceNow trainings

1. So that we can finally process your registration, you will receive an enrollment request after booking the course. Please carry out the enrollment immediately, at the latest **three** working days before the start of the course, according to the following instructions at ServiceNow:
[Enrol for Instructor Led Training using Learning Credits](#)
2. Please note that we must receive short-term bookings no later than five working days before the course begins.
3. If you are unable to attend the training date you have booked (e.g. illness, etc.) or if ServiceNow cancels the course, a credit note is not possible under any circumstances. If you cancel, you can name a replacement person. In both cases of cancellation, the validity of your credit remains for 12 months after the order.

For more information, please refer to the [ServiceNow Terms and Conditions](#).

Course Overview

During this two-day interactive training course, attendees will learn best practices for using and administering the premium ServiceNow Platform Analytics application.

Who should attend

This course is designed for Platform Analytics Administrators and Power Users who plan to administer the Platform Analytics application. Service owners who plan to develop requirements and specifications for Indicator and Dashboard creation may also benefit from this course.

This course is part of the following Certifications

Certified Application Specialist – Performance Analytics (CAS-PA)

Prerequisites

Attendees should have completed the ServiceNow Fundamentals course and have some experience with ServiceNow; advanced experience is not necessary.

A high-level overview of the Performance Analytics architecture, components, data flow, stakeholders, and deployment process is required to get the most out of the Platform Analytics Fundamentals class. New Platform Analytics users should complete the Performance Analytics Essentials – a self-paced, on-demand eLearning.

Course Content

A combination of course content and lab work helps attendees learn to:

- Use Platform Analytics Visualizations including Scorecards, Dashboards, Time Series, Targets, and Forecasts
- Explore the Platform Analytics data structure
- Manage Platform Analytics Roles
- Generate Automated Indicators
- Build Formula Indicators
- Construct Breakdowns, Elements Filters, and Bucket Groups
- Set up Data Collector Jobs
- Work with Dashboards and Data Visualizations
