

Scripting in ServiceNow Fundamentals (SSNF)

ID SSNF Price 2,256.— €(excl. tax) Duration 3 days

Important notes for the booking of ServiceNow trainings

1. So that we can finally process your registration, you will receive an enrollment request after booking the course. Please carry out the enrollment immediately, at the latest **three** working days before the start of the course, according to the following instructions at ServiceNow:
[Enrol for Instructor Led Training using Learning Credits](#)
2. Please note that we must receive short-term bookings no later than five working days before the course begins.
3. If you are unable to attend the training date you have booked (e.g. illness, etc.) or if ServiceNow cancels the course, a credit note is not possible under any circumstances. If you cancel, you can name a replacement person. In both cases of cancellation, the validity of your credit remains for 12 months after the order.

For more information, please refer to the [ServiceNow Terms and Conditions](#).

Course Overview

Attend Scripting in ServiceNow Fundamentals to learn how to use our JavaScript API to take advantage of the extensibility of ServiceNow and add new functionality to your instance. Do you have JavaScript experience and want to learn how to use that skill in ServiceNow to add new functionality or modify the baseline behavior of your instance? If so, attend Scripting in ServiceNow Fundamentals and take your scripting expertise to the next level by learning our JavaScript API.

This class begins with client-side scripting and transitions to server-side scripting. You will use your JavaScript background to write, test, and debug scripts using real-world use cases. The course features lectures, demos, and extensive opportunities to write scripts yourself in a wide variety of lab activities.

This course is part of the following Certifications

Certified Technical Architect (CTA)
Certified Master Architect (CMA)
Certified Implementation Specialist – Service Provider (CIS-SP)
Certified Application Developer (CAD)

Prerequisites

To ensure you have the most successful experience in this course, please ensure you have completed the following prerequisites. This course picks up where the related topics left off in the following courses:

ServiceNow courses to ensure you know how to navigate the Now Platform and use the key features that are customized with scripts throughout the course:

- Completion of ServiceNow Fundamentals course (Instructor-led or On Demand)
- Completion of the Flow Designer Overview course

Existing JavaScript knowledge as this course does NOT teach the programming language itself:

- JavaScript experience with the ability to write, test, and debug JavaScript

Course Objectives

How to use your existing JavaScript skills in the Now Platform
