

# Securing your Customer with DNA (DNAS)

**ID DNAS Price 599.— €(excl. tax) Duration 1 day**

## Course Overview

The objective of this course is to teach delegates how to position and sell Cisco's Digital Network Architecture (DNA) and Cisco Security solutions to deliver positive business outcomes for any customer and consequently forms the basis for business transformation towards a full digital services business.

***Delegates should bring a laptop with which to conduct research and complete exercises.***

The final module of the course, Module 5 provides a more in-depth overview of DNA security solutions with online demonstrations and the ability for delegates to conduct demos alongside the instructor.

## Who should attend

Anyone in sales who is looking to position Cisco's DNA and security solutions including Account Managers, Account Directors, Business Development, Sales Support and Pre-Sales.

## Prerequisites

None

## Course Objectives

### Learning Outcomes:

- Be able to articulate the value of Cisco DNA in helping a customer reach their strategic business objectives.
- Discuss the importance of selling Security and DNA together to drive new opportunities
- Be able to articulate the value of a Cisco Secure DNA to a customer and how that can benefit and transform a customer's business.
- To ensure that security is included in every DNA deal
- Understand Cisco's unique value in the market and how to use it to defeat objections and the competition
- Ensure a 'security-first' and 'digital ready' approach

- when selling and positioning Cisco DNA
- Provide a visual demonstration of the key DNA security components

## Detailed Course Outline

### Introduction & Welcome

### Topic 1 – Why Digitisation is Transforming the IT Market

- Digital Enterprise Definition
- The 4 Pillars of Digitisation (IoT, Mobility, Big Data, Cloud)
- Digital Disruption
  - How Disruptive is this?
  - Enterprise Need to Consume IT Differently
  - Software-Led Discussion
- What difference will it make to me as a partner?
  - Opportunities for Partners
    - Today and Tomorrow

### Topic 2 - What is the Digital Network Architecture?

- What is DNA?
- The DNA Design Principles
  - Virtualisation
  - Automation
  - Analytics
  - Cloud Service Management
- The DNA Business Outcomes
  - Faster Innovation
  - Reduce Cost & Complexity
  - Lower Risk
- The Solutions Underpinning the Design
  - CMX
  - Enterprise NFV
  - APIC-EM
  - StealthWatch, NetFlow
  - Meraki
  - Pervasive Security (ASA, AMP, FirePower, ISE, TrustSec, etc)
  - Cisco Umbrella (Open DNS)
- How Different is DNA
- Exercise – Delegates will now work individually and align and define which elements of the digitisation story and which pillars of DNA will resonate with their customers and

how they can use those services to help their customers accelerate their digital strategy.

### Topic 3 – Who Will We Sell this to?

- Target Markets, Target Customers and Target Stakeholders
  - Digital Transformation is Driving IT to the Boardroom
  - Identifying Digital Strategies
    - With IT
    - With LoB
    - With Business Leaders
  - Using DNA to Deliver Business Outcomes
    - With Quantified Business Impact
- DNA Use Cases
  - New Branch Office
  - Employee Productivity
  - Mobile and Cloud Service Adoption
  - Customer Experience
  - Ransomware
- Exercise – Delegates will now work in teams to build a business case to present to the CIO and also a business case that the CIO can then present to the Board.

### Topic 4 – How will we sell it?

- What We are Seeing
- How to sell DNA to Customers
  - Security is Key
  - The DNA Customer Journey
    - Phases of DNA Adoption
  - The Icebreaker program
    - Icebreaker Focal Points (LDoS, Energy Management, etc)
    - How to generate Business with Icebreaker
- Partner Incentives
  - EasyPay, OIP/TIP, SIP, CTMP, Security Ignite, etc
  - DNA and Cisco ONE
  - Add Security for Free
  - DNA Offers
  - Leading with Security
    - Secure Access
    - Secure WAN
    - Secure Perimeter
- Dealing with Objections and the Competition
- Partner Success Stories
- Exercise: Working in teams, each team will prepare a Customer for each stage of the DNA journey and mapping to final business outcomes and then plan a Customer Lifecycle Engagement strategy that accelerates their customer's journey towards digital transformation, building on the Cisco Digital Network Architecture (DNA) and

Business Outcomes.

### Topic 5 – The Solutions Underpinning DNA

- CMX
  - Video of CMX in Action
- Enterprise NFV
  - Video of Enterprise NFV in Action
- APIC-EM
  - Video of EPIC-AM in Action
- Cisco's Security Architecture
  - Security is holding back Digitisation
- How Does DNA 'Lower Risk'
  - Network as a Sensor
    - StealthWatch
    - Instructor and Delegate Demo of StealthWatch
  - Network as the Enforcer
    - ISE and TrustSec
    - Instructor Demo of ISE
  - Cisco Umbrella (Open DNS)
    - Components and How it Works
    - Instructor and Delegate Demo of Umbrella Branch
  - NGFW
    - Instructor Demo of FMC
- Exercises: During this module, delegates will work in teams practicing and conducting online demos of the key DNA Security solutions (StealthWatch and Cisco Umbrella) to visually 'educate the customer' on the benefits of having a secure DNA.

### Topic 5 – Summary

- Additional Resources
- Preparing Partners for DNA
  - Through Education, Enablement & Integration
- Call to Action
- Summary

# About Fast Lane

Fast Lane is a global, award-winning specialist in technology and business training as well as consulting services for digital transformation. As the only global partner of the three cloud hyperscalers- Microsoft, AWS and Google- and partner of 30 other leading IT vendors, Fast Lane offers qualification solutions and professional services that can be scaled as needed.
