Course Overview

You will receive a compact, descriptive and at the same time easy-to-understand overview of all the innovations and changes in Office 2019. In addition, we will give you valuable tips on how to make your daily work with the various apps more efficient and avoid problems.

The descriptions focus on the essentials and are supplemented by many illustrations. Sample files and exercise materials allow you to try out what is new, so that you can very quickly and successfully use the possibilities offered by the programs in your everyday work.

The document is ideal as accompanying material in the context of training measures as well as a reference book for the workplace or at home.

From the contents

- What's new in Office 2019 across programs? (e.g. file tab, new for images and illustrations, working online and in a team)
- New features in Word, Excel, PowerPoint and Outlook

Tailored to the learning topics, with BuchPlus you receive a comprehensive, digital media package with worksheets as well as exercise and results files.
