Course Overview

Microsoft 365 combines the functions of Office 365, Windows 10 and the Enterprise Mobility + Security Suite. This solution provides you as a company with a comprehensive, intelligent and secure environment for collaboration and communication.

With all the benefits this solution has, it still presents companies with challenges as well. SaaS, PaaS and IaaS require different and new methods to successfully implement and operate them.

In this workshop, learn the details of a successful implementation and what challenges you will face in day-to-day operations with an evergreen approach.

Course Objectives

After the workshop, you as a company and decision-maker will know exactly where and how you can effectively use Office 365 and Microsoft 365 in your company. You will receive an overview and clear recommendations as to which services can be used sensibly in your company, bring you professional and

organisational advantages, and what a strategy in the corporate sense can look like for you.
