### Course Overview

Learn with this compact course in the shortest time how to communicate with Outlook via e-mail, create contacts, appointments as well as create and manage tasks. Supported by easy-to-understand, practical examples and tips, we show you how to work cleverly and goal-oriented with Outlook.

Already on the first pages you will learn all the basic aspects of Outlook by means of an easy-to-follow example - e.g. writing, receiving and replying to e-mails. Thus, after the first chapter, you will not only have understood the basics of working with Outlook, but also experienced them in practice.

After you have received an overview of the basic possibilities of Outlook, you will gradually learn all the important Outlook features that can be of importance in later practice, such as the use of e-mails and contacts or how to plan and organize appointments and tasks. In this way, you can expand your Outlook skills step by step as needed. In addition, "Outlook 2019 - Basic Course Compact" also provides you with valuable services as a reference work again and again.

Tailored to the learning topics in "Outlook 2019 - Basic Course Compact", with BuchPlus you receive a comprehensive, digital media package with learning videos, further exercises, additional learning content, a knowledge test and quick overviews of the most important commands.

### Course Content

- 1 Outlook kennenlernen
