

# Packet Analysis Power Workshop (PAPW)

**ID PAPW** **Price** 3,290.— €(excl. tax) **Duration** 5 days

Our Wireshark workshops are now available with new content and in-depth exercises!

More info can be found under "Course Outline".

## Who should attend

Network administrators and all other technical staff responsible for the planning, implementation and ensuring high performance operation of their data networks.

## Prerequisites

Contents of the [Networking & TCP/IP Fundamentals \(NWF\)](#) course

## Course Objectives

In this two-day course, participants receive a systematic introduction to the basic functions and operation of the Wireshark analyzer and learn methods and techniques for monitoring, analyzing and troubleshooting networks at the packet level, as well as how to differentiate between network and application problems. It also provides participants with the knowledge necessary for detailed analysis and troubleshooting of typical network environments using Wireshark Analyzer. The main focus is on the analysis of TCP/IP networks and TCP/IP-based applications.

## Course Content

- Functions and basic operation of Wireshark Analyzer
- Advanced functions of Wireshark
- Methods and techniques for analysis and troubleshooting
- Statistics and baselining
- Network problems vs. application problems
- Switched Ethernet analysis
- TCP/IP analysis of the network layer
- TCP/IP analysis of the transport layer
- Analysis of TCP/IP with Wireshark
- TCP/IP applications

## Detailed Course Outline

### Functions and basic operation of Wireshark Analyzer

- Introduction and operation of the Analyzer
- Live capture and live capture settings
- Display options and analysis possibilities
- Working with Capture Filter and Display Filter
- File Input and Output

### Advanced functions of Wireshark

- Settings and user profiles
- Name resolution
- Reconstruction of user data - Reassembly of the protocol
- Packet coloring

### Methods and techniques for analysis and troubleshooting

- What is packet analysis?
- Steps and techniques of traffic analysis
- Ethernet switch analysis
- Recording of wireless network traffic
- Determining delay and response times
- Measure and determine throughput and overhead
- Statistics and baselining
- Baselining of applications on the network
- Wireshark statistics
- Network problems vs. application problems
- Typical network problems
- Application types and typical application problems
- "Is it the network or the application?" - Isolation of error situations
- Analysis and reconstruction of voice traffic

### Switched Ethernet Analysis

- Ethernet Analysis
- VLANs and VLAN tagging

### TCP/IP analysis of the network layer

- IP Addressing
- Typical IP network problems
- IP options
- ICMP, ARP and DHCP

### **TCP/IP Analysis of the Transport Layer**

- TCP Functions
- Session Setup, Data Transfer and Session Teardown
- Window mechanism and window optimization
- TCP options (SACK, Window Scaling) and TCP timer
- TCP graphs
- UDP functions

### **Analysis of TCP/IP with Wireshark**

- Wireshark settings for advanced TCP/IP analysis
- Typical problems with TCP/IP
- Wireshark Expert info messages and their meaning

### **TCP/IP applications**

- HTTP
- FTP
- DNS
- TLS

# About Fast Lane

Fast Lane is a global, award-winning specialist in technology and business training as well as consulting services for digital transformation. As the only global partner of the three cloud hyperscalers- Microsoft, AWS and Google- and partner of 30 other leading IT vendors, Fast Lane offers qualification solutions and professional services that can be scaled as needed. More than 4,000 experienced Fast Lane professionals train and advise customers in organizations of all sizes in 90 countries worldwide in the areas of cloud, artificial intelligence, cyber security, software development, wireless and mobility, modern workplace, as well as management and leadership skills, IT and project management.

## Fast Lane Services

- ✓ High End Technology Training
- ✓ Business & Soft Skill Training
- ✓ Consulting Services
- ✓ Managed Training Services
- ✓ Digital Learning Solutions
- ✓ Content Development
- ✓ Remote Labs
- ✓ Talent Programs
- ✓ Event Management Services

## Training Methods

- ✓ Classroom Training
- ✓ Instructor-Led Online Training
- ✓ FLEX Classroom – Classroom & Online Hybrid
- ✓ Onsite & Customized Training
- ✓ E-Learning
- ✓ Blended & Hybrid Learning
- ✓ Mobile Learning

## Technologies & Solutions

- ✓ Digital Transformation
- ✓ Artificial Intelligence
- ✓ Cloud
- ✓ Networking
- ✓ Cyber Security
- ✓ Wireless & Mobility
- ✓ Modern Workplace
- ✓ Data Center

**Worldwide Presence**  
with high-end training centers  
around the globe

**Multiple Awards**  
from vendors such as AWS,  
Microsoft, Cisco, Google, NetApp,  
VMware

**Experienced SMEs**  
with over 19.000 combined  
certifications
