ExpertLine courses do not use official Microsoft course materials (MOC), so SATV vouchers cannot be redeemed for these courses.

Who should attend

This workshop is suitable for network engineers and administrators who want to learn more about certificates and Certification Authorities.

Prerequisites

Basic previous knowledge of the Windows system as well as sound knowledge of Windows Server. Basic prior knowledge in the area of networking and Active Directory is advantageous.

Course Objectives

In this workshop, each participant builds a multi-level Windows Server PKI in a Windows Active Directory environment. In the process, PKI-enabled applications are configured and tested. An overview of the most common encryption and authentication methods and frequently used encryption algorithms serves as an introduction. After a theoretical introduction, an independent root CA and a subordinate organizational CA are set up.

Depending on the release of the final product of Windows Server 2016, this workshop will be held on the basis of Windows Server 2012 R2 or Windows Server 2016 and serves to give participants an initial overview of the complex topic of PKI.

Course Content

- Encryption method, digital signature, EFS
- Establishment of a Public Key Infrastructure (PKI)
- Installing the Certificate Services
- Comparison: Independent & Organizational Structure

- Strategies for maximum protection of the certificate hierarchy
- Backing up and restoring a certification authority
- Methods of certificate request offline / online
- Manage & create certificate templates
- Certificate template registration, update with ADS
- Management consoles and other tools for managing the PKI
- Emergency backup, revocation + renewal of certificates- Certificate store management
- Export and import procedures
- Managing certificates via group policies in the ADS
- Secure resource access with SSL, IPSec and smart card authentication
- Secure e-mail communication through encryption and signature

About Fast Lane

Fast Lane is a global, award-winning specialist in technology and business training as well as consulting services for digital transformation. As the only global partner of the three cloud hyperscalers- Microsoft, AWS and Google- and partner of 30 other leading IT vendors, Fast Lane offers qualification solutions and professional services that can be scaled as needed. More than 4,000 experienced Fast Lane professionals train and advise customers in organizations of all sizes in 90 countries worldwide in the areas of cloud, artificial intelligence, cyber security, software development, wireless and mobility, modern workplace, as well as management and leadership skills, IT and project management.

- ✓ Event Management Services

Training Methods

- ✓ Classroom Training
- ✓ Instructor-Led Online Training
- ✓ FLEX Classroom – Classroom & Online Hybrid
- ✓ Onsite & Customized Training
- ✓ E-Learning
- ✓ Blended & Hybrid Learning
- ✓ Mobile Learning

Technologies & Solutions

- ✓ Digital Transformation
- ✓ Artificial Intelligence
- ✓ Cloud
- ✓ Networking
- ✓ Cyber Security
- ✓ Wireless & Mobility
- ✓ Modern Workplace
- ✓ Data Center

Worldwide Presence
with high-end training centers
around the globe

Multiple Awards
from vendors such as AWS,
Microsoft, Cisco, Google, NetApp,
VMware

Experienced SMEs
with over 19.000 combined
certifications
