

SD-WAN Quick Start Implementation (SDWAN-QSI)

ID SDWAN-QSI Price on request Duration 5 days

Course Overview

Software Defined Wide Area Network ("SD-WAN") Advise and Implement Quick Start is a remote engagement that assists with implementation of the Cisco SD-WAN solution. Fast Lane subject matter experts (SMEs) will assist in the solution design, implementation execution, test execution and knowledge transfer. Fast Lane will also provide general project management services throughout the process.

Who should attend

- Enterprise Network System Installers
- System Integrators
- System Administrators
- Solution Designers
- Network Administrators

Prerequisites

It is recommended, not not required, to have the following skills and knowledge:

- Strong understanding of enterprise wide area network design
- Strong understanding of routing protocol operations, including both interior and exterior routing protocol operation
- Familiarity with Transport Layer Security (TLS) and IP Security (IPSec)

Course Objectives

Solution Design: Fast Lane will conduct a remote kick-off meeting with key customer personnel to review the program overview, roles and responsibilities, contact list, project schedule, and provide a site readiness checklist.

- Work with customer to select a pre-defined target use case using the completed site specific readiness checklist
- Create and provide Configuration Templates based on the

selected target use case(s)

- Draft the Solution Design Document which includes the following: a) use case topology diagram, b) logical design, c) planning timeline and schedule, d) roles and responsibilities, e) staging and cutover success criteria, f) sample bill of materials (BOM) for one (1) datacenter and two (2) remote locations
- Provide the Solution Design Document for review and approval in accordance with Document Deliverable Review and Approval Process

Implementation Execution: Fast Lane will review and confirm the activities and tasks in the agreed upon Solution Design Document.

- Perform SD-WAN configuration, cut-over and connectivity testing for the following components: a) Install one (1) instance of vSmart and vBond and one (1) vManage in the AWS hosted site; b) Remotely deploy configuration templates for one (1) data center with one (1) Edge router and one (1) remote location with one (1) or two (2) Edge router(s).
- Activate vSmart centralized Policies for Hub and Spoke Topology, Direct Internet Access Control Policy, Data Policy and/or Application Aware Routing Policy, if applicable;
- Activate local policy for branch QoS, if applicable;
- Validate the control and data plane connections for applicable transports;
- Push configuration from network management system platform to Edge devices;
- Activate necessary vSmart centralized policies.

Knowledge Transfer: Fast Lane will provide information regarding any course prerequisites for attendance in the knowledge transfer workshop.

- Conduct a four-hour remote knowledge transfer workshop via Cisco Webex
- Knowledge transfer topics include: a) Configuration, administration, and operation of the controller; b) Demonstration of use of key features; c) Configuration, operation, and maintenance of the Cisco network management tool; d) Basic management and troubleshooting of SD-WAN.

About Fast Lane

Fast Lane is a global, award-winning specialist in technology and business training as well as consulting services for digital transformation. As the only global partner of the three cloud hyperscalers- Microsoft, AWS and Google- and partner of 30 other leading IT vendors, Fast Lane offers qualification solutions and professional services that can be scaled as needed. More than 4,000 experienced Fast Lane professionals train and advise customers in organizations of all sizes in 90 countries worldwide in the areas of cloud, artificial intelligence, cyber security, software development, wireless and mobility, modern workplace, as well as management and leadership skills, IT and project management.

Fast Lane Services

- ✓ High End Technology Training
- ✓ Business & Soft Skill Training
- ✓ Consulting Services
- ✓ Managed Training Services
- ✓ Digital Learning Solutions
- ✓ Content Development
- ✓ Remote Labs
- ✓ Talent Programs
- ✓ Event Management Services

Training Methods

- ✓ Classroom Training
- ✓ Instructor-Led Online Training
- ✓ FLEX Classroom – Classroom & Online Hybrid
- ✓ Onsite & Customized Training
- ✓ E-Learning
- ✓ Blended & Hybrid Learning
- ✓ Mobile Learning

Technologies & Solutions

- ✓ Digital Transformation
- ✓ Artificial Intelligence
- ✓ Cloud
- ✓ Networking
- ✓ Cyber Security
- ✓ Wireless & Mobility
- ✓ Modern Workplace
- ✓ Data Center

Worldwide Presence
with high-end training centers
around the globe

Multiple Awards
from vendors such as AWS,
Microsoft, Cisco, Google, NetApp,
VMware

Experienced SMEs
with over 19.000 combined
certifications
