CompTIA SecurityX (Formerly CASP+) (SECURITYX)

ID SECURITYX   **Price** 2,490.— €(excl. tax)   **Duration** 5 days

Course Overview

CompTIA Advanced Security Practitioner (CASP+) will be re-branded to SecurityX with the release of the next exam version CAS-005 on December 17, 2024. The name change emphasizes the advanced, or "Xpert" level certifications in the CompTIA portfolio.

The name change from CASP+ to SecurityX will not affect the certification status of current CASP+ certification holders or the continuing education (CE) program. Those with an active CASP+ certification will automatically receive the rebranded SecurityX badge and can download a new certificate and transcript in CertMetrics. Unexpired CASP+ exam vouchers will work for the SecurityX exam. The certification will continue to:

- Validate job tasks performed by a security professional with 10 years of IT experience and 5 years of security experience
- Be designed around the tasks performed by senior security engineer and security architect roles
- Be a natural progression from the job roles aligned to Security+

Course Objectives

Security Architecture

Analyze security requirements in hybrid networks to work toward an enterprise-wide, zero trust security architecture with advanced secure cloud and virtualization solutions.

Governance, Risk, and Compliance

Prove an organization's overall cybersecurity resiliency metric and compliance to regulations, such as CMMC, PCI-DSS, SOX, HIPAA, GDPR, FISMA, NIST and CCPA

Security Operations

Address advanced threat management, vulnerability management, risk mitigation, incident response tactics and digital forensics analysis

Security Engineering and Cryptography

Configurations for endpoint security controls, enterprise mobility, cloud/hybrid environments, and enterprise-wide PKI and cryptographic solutions

Course Content

SecurityX is the only hands-on, performance-based certification for advanced practitioners — not managers — at the advanced skill level of cybersecurity

While cybersecurity managers help identify what cybersecurity policies and frameworks could be implemented, SecurityX certified professionals figure out how to implement solutions within those policies and frameworks.

Unlike other certifications, SecurityX covers both security architecture and engineering

SecurityX is the only certification on the market that qualifies technical leaders to assess cyber readiness within an enterprise, and design and implement the proper solutions to ensure the organization is ready for the next attack.

SecurityX is the most up to date advanced-level cybersecurity certification on the market

SecurityX covers technical skills in on premises, cloud native, and hybrid environments, governance, risk, and compliance skills, assessing an enterprise's cybersecurity readiness, and leading technical teams to implement enterprise-wide cybersecurity solutions.

SecurityX is compliant with ISO/ANSI 17024 standards and maps to DCWF work roles used by U.S. DoD Directive 8140.03M.

Regulators and government rely on ANSI accreditation, because it provides confidence and trust in the outputs of an accredited

program. Over 3 million CompTIA ISO/ANSI-accredited exams have been delivered since January 1, 2011.

About Fast Lane

Fast Lane is a global, award-winning specialist in technology and business training as well as consulting services for digital transformation. As the only global partner of the three cloud hyperscalers- Microsoft, AWS and Google- and partner of 30 other leading IT vendors, Fast Lane offers qualification solutions and professional services that can be scaled as needed. More than 4,000 experienced Fast Lane professionals train and advise customers in organizations of all sizes in 90 countries worldwide in the areas of cloud, artificial intelligence, cyber security, software development, wireless and mobility, modern workplace, as well as management and leadership skills, IT and project management.

Fast Lane Services

✓ High End Technology Training
✓ Business & Soft Skill Training
✓ Consulting Services
✓ Managed Training Services
✓ Digital Learning Solutions
✓ Content Development
✓ Remote Labs
✓ Talent Programs
✓ Event Management Services

Training Methods

✓ Classroom Training
✓ Instructor-Led Online Training
✓ FLEX Classroom – Classroom & Online Hybrid
✓ Onsite & Customized Training
✓ E-Learning
✓ Blended & Hybrid Learning
✓ Mobile Learning

Technologies & Solutions

✓ Digital Transformation
✓ Artificial Intelligence
✓ Cloud
✓ Networking
✓ Cyber Security
✓ Wireless & Mobility
✓ Modern Workplace
✓ Data Center

Worldwide Presence
with high-end training centers around the globe

Multiple Awards
from vendors such as AWS, Microsoft, Cisco, Google, NetApp, VMware

Experienced SMEs
with over 19.000 combined certifications
